

# Transnational meeting 2-Trieste / Increasing competences Day 1

## Expected results of the project activity:

By sharing each other's experiences and discuss what is equal and what is different, and which challenges we can collaborate and develop within that benefit individuals in Europe. It is after this second transnational meeting, that we have listened and learned from each other and can implement into everyday work at home. It is now that we have begun to gain a holistic perspective and will in our local environment implement what we have brought with us, start testing and evaluate.

## Theme: Internal context unaccompanied minors

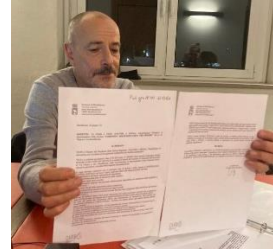

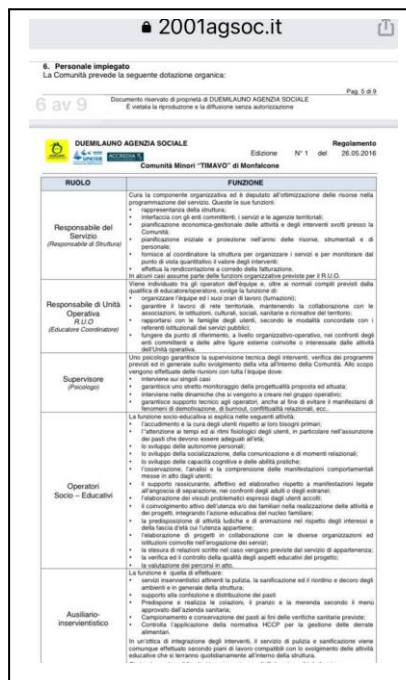

Tuesday 22 November
